

Construction Update – 16th January 2017

Attached are drawings for the gas installation works for Media City. Work will commence on Wednesday the 18th January and scheduled to be complete by Saturday the 21st January.

The round-a-bout will be closed during construction hours and the plan is to open it up outside of construction hours with a steel road plate over the excavation.

The authorities, Jemena, have indicated to us that there will be no disruption to Media City gas supply during the works as they will install a by-pass prior to cutting in the new T-junction.

As always, if you have any questions, please don't hesitate to contact atp.communications@mirvac.com

Kind regards, Kim
