## DID YOU KNOW..?

The International Business Centre building at ATP was part of the original construction of the Eveleigh Workshops in the 1880s. It served as the Work Manager's Office, Pay Office and Timekeeper's Office for the site. Notably, a bell on top of the building rang at the start and end of shifts to keep workers on time.

## CONSTRUCTION UPDATES

Mirvac is committed to keeping the community up to date throughout the redevelopment of ATP. Please check the development section of the ATP website for regular construction updates.
